

Down Under

by Brett Birkill

I've travelled the world I've seen the good and bad
I've laughed with the best and cried with the sad
Wherever I go and whoever I see
My life always ends up back with me

So lucky to have all that we do
No matter what comes there's always a way through
Dream of another place, often sit and ponder
But life can't be better than living down under

Big Ben Empire state and the Golden Gate
Kremlin Berlin Wall to Niagara Falls
Wherever I go and who ever I see
My life always ends up back with me

So lucky to have all that we do
No matter what comes there's always a way through
Dream of another place, often sit and ponder
But life can't be better than living down under

Cycle to the Eiffel Tower search in Loch Ness
See Piccadilly Circus and climb Mount Everest
The pyramids of Giza and the boobs of Moulin Rouge
Stand the Rock of Gibraltar or do a Yangtze River Cruise

So lucky to have all that we do
No matter what comes there's always a way through
Dream of another place, often sit and ponder
But life can't be better than living down under
Oh life cant be better than living down under
