

It Just Has To Be

by Brett Birkill

What was it with the past
So close until the last
The hard work was undone
And left us all with none

Fly up high like an eagle
Sail far across the sea
Get up and climb the highest mountain
This last chance didn't come for free

No more time to make excuses
No more chances will you see
If not now it may be never
This one time it just has to be

Take thoughts from the best
No champion will ever rest
'til the time they hold the trophy
No doubts just wait and see

Hit 'em hard like a steam train
Never give in whilst next to me
Life wasn't made to be so easy
This last chance didn't come for free

No more time to make excuses
No more chances will you see
If not now it may be never
This one time it just has to be

No more time to make excuses
No more chances will you see
If not now it may be never
This one time it just has to be

If not now it may be never
This one time it just has to be
